

Gaëtan FRANÇOIS

Senior HRIS Consultant - global HR process design & multi-country delivery

Profile

Independent HRIS consultant with 15 years spent redesigning HR processes and delivering HR systems for large multi-country organisations, including 10 years on the L'Oréal worldwide account across 40+ countries. Comfortable in front of HR leadership: facilitating design workshops, consolidating what each country asks for into one workable process, arbitrating between the global model and local exceptions, and explaining what every option costs to run afterwards. Started out in consulting at ALTI and TCS, where I led and won an outsourcing tender then supervised the offshore team that took over. Co-founder of WallOfTraders.com. Daily user of generative AI tools.
