

Gaëtan FRANÇOIS

Generative AI Trainer & Project Lead

Profile

- Trained the whole of L'Oréal's European HR community (40+ countries) on SAP HR and SuccessFactors during global rollouts; 15 years leading international programmes.
- Daily practitioner of generative AI: two SaaS products shipped (lifaia.com, personalised medical assistance; archikk.com, AI tools for architects), Claude Code in production and eight vibe-coded projects delivered end to end.
- WallOfTraders.com (Product Manager): SEO campaigns, semantic content clusters, newsletter and growth hacking with PhantomBuster.
- ML and Deep Learning training (Coursera, Andrew Ng / Python); prediction models applied to horse racing.

Experience

Nov. 2025 - Present

AI Projects
Founder - Remote

Generative AI Developer

- **lifaia.com**: AI-personalised medical assistance SaaS (architecture, development, production launch)
- **archikk.com**: SaaS of AI tools for architecture professionals
- Daily use of **Claude Code** (Anthropic CLI): AI development in production, agentic workflows, AI API integration (Claude, ChatGPT, Gemini, Mistral)
- **Vibe-coded projects delivered**: mean-reversion trading bot on Binance (Python, 4-year backtest, Monte Carlo, live); Airbnb review automation (AI agent, personalised comment 48h after check-out); PassoiresMap (B2B EPC prospecting, Next.js + Supabase + MapLibre); AidesMatch (public grant matching for SMEs via SIRET, Claude API + Stripe); Spotify playlist creation from a plain-text song list; full job-search automation (scraping, Excel, Python pipeline)

2018 - 2025

L'ORÉAL
Freelance - Remote

Global Programme & Change Management Project Lead

- **OneProfile** (SAP HR to SuccessFactors EC migration, 40+ countries): BU workshops, specifications, change management, worldwide HR training
- **OnePayroll** (global payroll centralisation): multi-country coordination, go-live, KPI tracking
- Key-user training and knowledge transfer (FR & EN); Tamigo rollout in stores

2018 - 2026

WallOfTraders.com
Remote

Product Manager - SaaS B2B/B2C Startup

- SEO (semantic content clusters, blog), newsletter and growth hacking as the main acquisition lever; Telegram community management, Facebook advertising
- Managed a portfolio of B2B accounts (traders, demos, marketplace onboarding) and B2C accounts (customers copying their trades); KPI tracking, feature acceptance and product evolutions based on specific needs, oversight of interns and work-study students

2016 - 2018

R&D
Bordeaux

AI, Machine Learning & Automation

- Coursera ML & Deep Learning (Andrew Ng / Python): prediction models applied to horse racing, scraping; design of an autonomous waterproof drone (Pixhawk)

2012 - 2016

ALTI - TCS
Paris

HRIS Consultant & Key-User Trainer

- **L'Oréal** (2014-2016): SAP HR application maintenance across 40 countries, training & knowledge transfer (offshore team in India), led the outsourcing tender (won), GTA (time management) redesign
- **FMC Technologies** (2013): SAP HR rollout across 8 European countries; Air France, Generali, Canal+, Sanofi
