

Gaëtan FRANÇOIS

Senior HRIS Consultant - SAP SuccessFactors, client-facing & AI

Profile

Senior HRIS consultant with 15 years spent designing, migrating and running SAP HR solutions for large multi-country organisations, including 10 years on the L'Oréal worldwide account (40+ countries). Used to sitting in front of HR sponsors and local teams: running design workshops, turning HR needs into functional specifications, showing what a system can and cannot do, and defending the option that stays maintainable three years later. Led and won an outsourcing tender for SAP HR application maintenance. Product Manager at WallOfTraders.com, a B2B/B2C SaaS platform. A daily user of Claude Code and generative AI tools.

Professional Experience

2018 - 2025

L'ORÉAL
Freelance - Remote

HRIS Consultant - Global SuccessFactors programme

- Global SAP HR to SuccessFactors Employee Central migration (**OneProfile**): functional specifications, data migration, UAT and go-live across 40+ countries
- Ran design workshops with corporate HR, local teams and the integrator; arbitrated between the global core model and country requests, and explained to sponsors what each option would cost to maintain
- Global payroll centralisation (**OnePayroll**): cross-functional coordination, data migration, go-live
- Tamigo deployment (time management) in retail stores worldwide: UAT, go-live, post-launch support
- SAP HR ongoing support and maintenance, reporting

2018 - 2026

WallOfTraders.com
Remote

Product Manager - B2B/B2C SaaS startup

- Trading platform: managed B2B trader accounts (demos, onboarding onto the marketplace) and B2C clients who copied their trades; product management, feature acceptance testing, user support, community management (Telegram, newsletter)
- Tracked adoption and retention KPIs; evolved the product roadmap to fit specific account needs
- Acquisition side: SEO strategy, Facebook advertising, intern and apprentice management

2016 - 2018

Personal Projects
R&D

AI, Machine Learning & Robotics

- **Machine Learning** (May 2017 - Apr. 2018): Coursera training in Python, machine learning, deep learning and scraping, applied to price prediction
- **Autonomous drone** (Nov. 2016 - Apr. 2017): waterproof GoPro drone, Pixhawk / Mission Planner controller, electronics and robotics
